

THE DO228 SERVICE CENTER IN THE HEART OF EUROPE

General Atomics AeroTec Systems is the OEM and Type Certificate Holder of the Do228. The aircraft has been manufactured at our site for more than 40 years. This means that we know the Do228 better than anyone else and can offer a wide range of services for the aircraft based on our extensive expertise.

Our Do228 service portfolio offers Do228 operators full life cycle support for the aircraft, including all MRO services, upgrades and modification options, component services, technical support, engine overhauls for the Honeywell TPE331, pilot and crew training as well as reliable AOG service.

BENEFIT FROM OUR EXPERTISE

- ✓ Full life cycle support for Do228 aircraft
- ✓ In-depth knowledge of the Do228 as the OEM
- ✓ Unmatched expertise from over 40 years of manufacturing and maintaining the Do228
- ✓ **Certified excellence** – EASA (Part 145 & Part CAMO), FAA (Repair Station), CAA UK (Part 145), and Nadcap (NDT)
- ✓ We offer high-quality workmanship
- ✓ One single location for all Do228 services

DO228 MRO

As the OEM of the Do228, we know our aircraft best and can therefore offer all MRO measures at our location at EDMO Munich-Oberpfaffenhofen to keep your aircraft fully maintained as well as repair any defects and malfunctions.

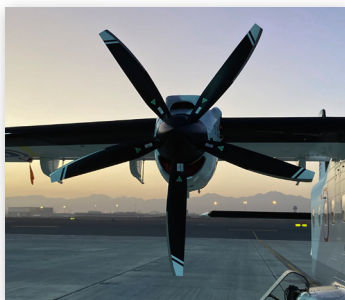

- ✓ Service center for maintenance, repair and overhaul of your Do228
- ✓ Light and heavy maintenance work
- ✓ Flexible craftsmanship and reliable quality along with customized services
- ✓ Technical support on-site with worldwide AOG services

UPGRADES AND MODIFICATIONS

We offer customized solutions for your Do228 and your specific mission requirements. We carry out all kinds of upgrades and modifications on your aircraft, to make sure your Do228 is optimally equipped for its missions.

- ✓ Installing upgraded engines, propellers and avionics systems
- ✓ Upgrade to modern glass cockpit
- ✓ Installation of many different sensor systems and mission equipment
- ✓ Conversion of cabin layout

ENGINE OVERHAULS

The Do228 is powered by Honeywell TPE331 engines. We are an authorized service location for the Honeywell TPE331. With our in-house workshops for engines, we ensure the operational availability of your Do228 aircraft.

- ✓ MRO, inspection, testing and modification services for engines
- ✓ EASA, FAA and certificate of compliance (CoC) certifications
- ✓ Line and heavy maintenance for Honeywell TPE331
- ✓ Operation of an engine test stand plus an in-house stock of replacement parts

CUSTOMERS MATERIAL AND TECHNICAL SUPPORT

Our goal is to provide all Do228 operators with easy access to the solutions they need for continued mission success, whether it be spare parts or technical services. The experts at General Atomics AeroTec Systems are there to help you as a strong long-term partner.

- ✓ In-house stock of replacement parts, components, special tools and GSE
- ✓ Overhaul of landing gear, life rafts, mission equipment, hydraulic and avionic systems, engines, propellers as well as flight controls
- ✓ Individual technical services for the customer and its Do228

PILOT AND CREW TRAINING - DO228 FLIGHT SIMULATOR

We operate the most modern Do228 flight simulator in the world, which can be used for comprehensive pilot training. The FSTD is certified as FTD Level 2. All of our training courses for prospective and experienced pilots are EASA-approved.

- ✓ Complete pilot training for the Do228 aircraft
- ✓ Approval for the type rating of the Do228 NG / NXT, refresher and differences training
- ✓ Training of flight instructors for the Do228 aircraft
- ✓ Training courses for flight operations with multiple pilots (multi-crew)
